## *1991*

by Jim Pertierra

I can honestly say that there has not been a year like 1991 in the TML since the very first year.

So many significant things happened that to recount them all would take much more space than I am allotted here. I will try to wrap things up as best as I can.

The year began with many of you worrying about whether this yearbook would ever come out. To be honest with you, I shared many of your apprehensions. This was to be my first year without Mike Landin standing next to me reminding me of when things had to be done. This was the first year that Mike's first look at the newsletter was when he got it in the mail. This was the first year when, not only would the stats not be done at least partially by Mike, but they were going to be done outside of the same city limits. This was the year when there was a lot of grumbling about whether or not we should continue with ASG. This was the year that saw the National Association in a very tranquil state, while the American saw constant turnover. But this was also the year that saw this organization grow up, flex its collective muscles and run full tilt towards the end of the century.

There was a lot of honesty in our dealings with each other this year. We banded together and the culmination of that was an attitude at the 1992 Draft that I have not seen in a long time. I was not the only person to notice it either. After the draft I got many phone calls from you expressing a feeling that, without making this sound more schmaltzy than I want, made me very proud.

A lot of things changed during TML 12. I tried to make the newsletter more news and fewer stats. We had a lot of fun with some time honored traditions this year. Witness Ray Searage.....

During the long spring and summer I had the opportunity to sit with Mike Short, Hank Pedicone and Bill Graham during many a lunch hour and just talk about League stuff. How could we make things better. Every phone call that came in during the season was a source of ideas.

So, in a year that started with many fears and speculations, the following things happened...

- 1) We changed our drafting procedures
- 2) We changed to an almost fully computer league
- 3) We set the stage for 8 new teams.

## *Continued*

There were many factors and reasons, but the prime factor was the strength of the league itself. We welcomed back old friends both at the beginning of the year and with the expansion managers. We got our co-founder back full of life and ideas at mid ships and, frankly, Gerry Klug and Mike Short allowed us to test and fine tune a game that will enable us to just enjoy the games rather than work at them.

We sit here poised ready to start the steady march towards our 20th year. Surely that might seem like a premature statement when we are still 7 years away, but now it is inevitable. The TML that Mike, Larry and I envisioned back in 1978 was nothing like the TML that will begin our 13th year. It is even better. I am sure that we would have liked to think that we would get in 5 years or so like most leagues, but now....

I have had many dealings with many people over the course of the last season. I know now for a fact what we have suspected for awhile. Frankly, the TML is the best League in the mail league universe. Certainly there are many APBA Leagues that have been around longer, but there are none, this large, this progressive that have managed to stay together this long, let alone increase in size. The model for TML was the TCBA. When TML started, TCBA was a 36 teams league, divided into American and National. Now the TCBA is two, 20 teams leagues sharing nothing. The leagues divorced many years ago, but yet we grow. What is it? Need I say it?

Just before closing, this is the list of people who have gone through all 12 years with us:

*Mike Landin, John Gatto, Carl Carpenter, Mike Mayko, Chris Lentine, Doug Zuchowski, Frank Lentine, Jim Schembari, Nite Mahan, Art Albanese, Dave Pittner, Rocky Hall, Rich Goldberg, Larry Alber and Jim Pertierra.*

In closing, and I know that I am going to forget someone here, there are several people in particular I wish to thank. To Larry Alber, there can be no better friend. To Dave Pittner, this was your year Dave. Thanks for all the brilliance. To Hank Pedicone, Bill Graham, Bob Weisman, Joe Steinmetz, Bruce Clark, Eric Rogers and Bryan Sakolsky, I thank you for your concern and love for the TML. To Mike Landin, what can I say!!! To Dennis Gaige, the TML would be a lot less fun for most of us if you hadn't graced our lives! Finally to Mike Short and Rich Goldberg. Without each of you, your support, your ideas, your willingness to argue the other side, your friendship, I would not have made it through the year. Diamond Dreams is a testament to a lot of people and it will make TML 25 more fun than TML 1 !!

I wish to thank each and every member of this fraternity. From Phi Beta Epsilon in the American to the Animal House that is the National, you are the best!

# The American Game

with Mike Short

The year 1991 will go down as one of the strangest in American Association History.

First, American Commissioner Mike Landin stepped aside for a year. He had had enough of the enforcer role, and a team that was underperforming, and a game that took a long time to play. Jim Pertierra talked him into taking a break for a while, so he could refresh his enjoyment of the league.

Then, Tom Kopp swore off dice, insisting he was a much finer general manager and never was that lucky anyway. So he hired his brother Mike to roll the dice and pilot the team.

Then, Sherlock manager Carl Carpenter stepped down, and Jim took over (though you would never know it from the American articles in the Summer Stretch).

Then, the manager for Tougaloos became a no-show, and the franchise was picked up by at least three other managers: Jim, our erstwhile on-sabbatical co-commissioner Mike, and the current Tougaloos manager Mark Plate.

Somewhere along the line, the Flin Flon spot became open, and Mike picked up managerial duties there.

Then Lonnie Buys disappeared, moving, losing his phone and basically incommunicado. So Mike, having just disposed of the Flin Flon schedule, picked up his old team and guided them into position to win the division. And didn't. But more on that later. Of course, Lonnie resurfaced, and had actually played some games that Mike had replayed, although he didn't know he was replaying them,

since he thought they'd never been played, which they had been.

A lot of the season is a blur for this reporter, a blur of computer syntax error messages. I spent most of the summer scrambling to get an early version of the computer game Diamond Dreams ready before each bonus date so I could cram the games in, and rip the program apart again for the next three weeks. It's not as if I lived and breathed the game, but I did take a set of disks with me on vacation, where I added the arrow selection of the runners to pinch run for, and the arrow selection of what base to throw to (you used to have to type it in, though only four or five of you saw the game like that). I may have done most of the lineup selection stuff on vacation, too. Some vacation.

And some season. Sherlock, with its new interim manager Jim, battled Los Angeles, managed by Craig Christmann to a flatfooted tie atop the Association with a Ruthian 103 wins. The two has split 16 games head to head, so it went to assorted tie breakers, and the Spiders were elected to visit the Pensacola Sting Rays, who under the watchful eye of pilot Mark Hetterich had compiled 100 wins to swamp the Robinson. The Spiders took the first two games at Pensacola, but returned the favor twice at home to return the series to Florida with a 3-2 lead. But the Sting Rays turned back the Spiders to win the series in seven games.

Across the way, three other noble teams (four, actually) battled all year long for bragging rights in the Global Conference. Bryan Sakolsky's Walla Walla Wombats ended up

with the best record in the conference with 101 wins and a three game cushion over the Kopp Brother's Rockford Radar to will the Williams division. And in the Gerhig. Lonnie/Mike's Darkfyre Daemons closed like wild fire, passing Colonie and posting a large enough lead that only a 14-2 final series record or better could thwart them. So Mike Short's Colonie Flames ignited, winning 14 straight and 15 of 16 to leave Drakfyre with the best non-playoff record for the second straight year. In fact, only Darkfyre and the playoff teams had records better than .500. Gerry Klug and the Molly Pitchers finished at 80-80 for the eighth best record in the Association.

I had the good fortune to watch the Flames fight tooth and nail in the Global Wildcard Playoff, taking a 3-2 lead in games only to lose 3-1 in games six and surrender back-to-back-to-back-to-back (yes four) homeruns in game seven. In the finest Dennis Gaige tradition, I ripped the disk from the machine and tossed it into the fire. Since the game was stored on the harddrive, the action was largely ceremonial.

In keeping with the spirit of the season, Mike Short then picked up the managerial duties of both Walla Walla and Pensacola in the playoffs. First, he proved that he could lose with anyone's team as he piloted the Rays to a 4-2 loss with Jim's Sherlock. Then he proved he could actually predict a series and have it come out right when he suggested that Rockford had underestimated Walla Walla. Of course, this being 1991, Mike Landin managed Rockford (both against Colonie and against Walla Walla). The

Wombats womped them, four games to one.

The final American Series of the year pitted Byran/Mike's Wombats against Carl/Jim's C's for the honor of being swept by Rocky Hall in the World Series. And it was a nailbiter, with six close games, four of them Walla Walla wins.

The most important event in the American in 1991, however, was not the playing of the games, but the ability to play some games on the computer. For a while during the season, the league had only 37 managers, and Jim playing games in the American and the National (altogether about 236 league games -- he's the only human who has used the Diamond Dreams draft program more than I). Now, we have 40 managers, plus eight expansion managers, plus a waiting list, plus another league with the 1964 card set. More than one manager (and I think this included two commissioners) told me in March of 1991 that the Diamond Dreams Baseball-(TM) computer game (as yet unnamed) would be the savior of the TML. I remember clearly what I thought when I heard that: Oh Thanks! As if I don't have enough pressure as it is!

But things have worked out very well. The company's had some growing pains; this is new to us, trying to support a computer system on several different hardware types spread all across the country. On paper, you can print a correction, change the rules, fix a rating. At my job, I can call up the program, make the change, file it away and it's fixed. But when the rating is on your computer in Tuscaloosa, I can't run down the hall and fix it; when it's not on paper, you can't just say "David Justice's error number should be a four." But we'll get better.

And the support Diamond Dreams has had from the TML league members has made it all possible. And that is what I will remember from 1991.

For Mike Landin and Darkfye, it will likely be remembering falling just short and wondering what might have been if he'd been at the helm all year.

For Bill Graham and Thunder Bay, it might be wondering what would have happened if the offense had shown up.

For Joe Steinmetz and Philadelphia, perhaps it will be Clemens and Welch each winning 18 games.

For Rich Perrotti and New Jersey, perhaps the battle cry of "Wait till next year" sounded in April.

For Bryan Sakolsky and Walla Walla, it will be another American Championship.

For the Kopps and Rockford, a wonderful season with one tough set of Three Amigos: Bonds (.298, 41, 120 and Player of the Year), Sandberg (.300, 37, 135) and Wallach (.302, 23, 102) batting three-four-five in the order.

For Eric Rogers and Banff, it will be looking forward to three tough Amigos in 1992: Will Clark, Frank Thomas and Jay Buhner.

For John Gatto and Chicago, it will be hoping that there is more to life than Dave Parker in 1992 (.270, 20, 98).

For Bob Weisman and Zagazig, it will have very little to do with baseball, as he found out he would be a father soon.

For Mark Hetterich and Pensacola, it will be the dramatic turnaround from 1990, a last-to-first escapade that proved that real life imitates the TML.

For Ralph Geiger and Tuscaloosa, it may be the unlikely hero Dave Magadan leading the team in runs created.

For Hank Pedicone and Skayuna, it may be the discovery that TML style baseball is a whole lot more fun than he thought it would be, especially with the computer doing the stats.

For Flin Flon and all the managers, well, frankly, I don't know what they're going to remember.

For Nite Mahan and Niceville, it will be all those high scoring games, as his team had no trouble scoring and neither did his opponents.

For Jim Pertierra and Sherlock, it will be the thousands of games he played, and almost taking this team to the top. Actually, it'll be the way the American Reporter neglected to mention his team all year long.

For Craig Christmann and Los Angeles, it will be having the best record in the Association and still getting bumped off in the Wildcard Playoff.

For Gerry Klug and Molly, it will be the Seattle Rainers.

For Larry Rumsey and Coldwater, it will be Cecil Fielder nearly hitting as many home runs as his whole team did in 1990.

And for the various and sundry managers who handled Tougaloo, it will be each win, since there were so few that each stands out as a unique experience.

It seems to me that the bad luck came during TML XII and that the thirteenth year could be the best ever. See you then.

Entering my 5th year as a research meteorologist at the National Meteorological Center in Washington, DC., spending most of my time cursing computers. Barbara received a well deserved promotion at her job in the Prince George's County Library System. The big highlight of 1991 was spending our 19th wedding anniversary in Charleston, SC where Hurricane Hugo damage has become a big tourist attraction.

## The Season Story

Although 76-84 doesn't sound like much to the numerous, never ending dynasty teams in the TML, it was the best record for Banff since I took over the team. the offense was pathetic against righties, but murderous against lefties. Dykstra started slow and went nuts in the last two series to crack .300. Platoon players like Boston, Buechele and Schu (14 HR in 167 AB) kept us in most games and Frank Thomas (.490 OB%) was awesome. Allan Anderson was surprisingly effective while Brian Holman was a bust. A full season from Frank Thomas in 1992, supported by Will Clark, Jose & Buhner will hopefully put us over .500 next year.

## Biographical Sketch

Finishing my last year in Real Estate with my 2nd retirement soon. We now have 8 grandchildren, the last one arriving in August. One more and we'll have a team. Now I will have time to play with the new computer I purchased one month ago and still have plenty to learn. At present, I barely know what DOS is, so be patient this season.

Team MVP: Parker

Most Unexp. Perf: DeLeon

## The Season Story

Much the same as the previous season, i.e., it sucked. Pitchers were better than their records show due to the poor fielding behind them, which is glaring under the microscopic eye of ASG. Tim Burke and DeLeon stood out. This team lacked power and did not have a single .300 hitter. We're already looking beyond 1992 since the team is in much need of rebuilding and 1992 won't be much better. It needs help everywhere. The draft may help, along with expansion, because we don't expect that many of these players will be chosen by the expansion teams.

Manager: Larry Rumsey (Carolyn)

Age: 48 Occupation: RCA E8 State Of Michigan

## Biographical Sketch

My wife Carolyn and I have been married for 23 years and have 3 children, Mary 22, Mark 18 and Scott 16. I have a grandson Matthew, 2 1/2 years old and granddaughter, 8 months old. I have been working for the Mental Heath Dept. for 24 years. My hobbies include tennis, bowling and playing in the TML.

Team MVP: Fielder

Most Unexp. Perf: Harnisch

## The Season Story

Coldwater did not have the season I thought I would have. I ran short of pitching at the end of the season. I was 0-16 for series 12. AFTER having a TML record low 66 home runs last year, I just about doubled this input by getting 124 round trippers this year. Fielder had 52 homers & Barfield 22. My top pitcher was Harnisch who had 16 of my 68 wins, 3.88 ERA. Heaton also went 11-5 with a 3.27 ERA. Hennedman did a good job in relief, 26 saves, 2.77 ERA.

# COLONIE Flames

Manager: Mike Short (Monica)

Gehrig Division Champ

Age: 37 Occupation: Dir. of Data Proc.

## Biographical Sketch

The Programmer for Diamond Dreams, simply the best computer baseball game on the market (\*Blatant Advertising\*)...A husband and father...musician and kid's soccer coach in what's left of my spare time.

Team MVP: Mitchell

Most Unexp. Perf: Danny Jackson

## The Season Story

Played well early, stumbled after the Stretch to set up a magnificent stretch run, officially 16 of 17 (including 14 in a row) to snatch the Division title. Still can't win a playoff series. The team was explosive, with Justice, Mitchell, Gant batting 3, 4, 5. The pen was excellent, leading the American in RP's for the fifth of the last six years. And, reached 1,000 strikeouts for the sixth straight season.

Next year: comparable hitting, much better pitching, much, much, better infield defense should yield a third straight crown.

# DARKFYRE Daemons

Manager: Mike Landin (Teri)  
Age: 38 Occupation: Meteorologist

## Biographical Sketch

Continue to work and broadcast weather reports for SUNY Albany. Am a back-up "on-air" meteorologist for WTEN TV-10 here in Albany. In my spare time, am a certified baseball/softball umpire. Enjoyed my year off and looking forward to the coming season. Teri and I went to Egypt this past summer and took a Nile cruise. It was great! I also went to Las Vegas for the first time. It's a "Disneyland" for adults.

Team MVP: Eckersley

Most Unexp. Perf: G. Maddux

## The Season Story

The Daemons were caught up in another "fight to the finish", only to find themselves, for the second straight year, with the best record of all TML teams not to make the playoffs. (Hats off to the Flames for their great finish!) Offensively, the runs were driven in by Canseco and McGwire, while the table setters were Doran and Gwynn. In the pitching Dept., all six starters won 10+ games. Mike Scott closed out his career with a team leading 17 wins. The bullpen was effective, led by the "untouchable" Eckersley and his tiny 0.68 ERA. Maddux at 13-3 was outstanding. (Too bad we wasted 15 starts.) A fond farewell to Blyleven and Scott.

## The Season Story

At one point, a .500 season was within reach, but a late-season collapse ended that dream. Brooks, Galarraga and "Bo" provided the bulk of the offense. (Galarraga almost tied the American whiff record with 193 K's.) Melido Perez lost 21 games with a 4.27 ERA, while Sanderson at 4.63 won 18. (Isn't baseball great?) Reardon proved to be a capable stopper out of the pen.

## The Season Story

As good as the Spiders' season was, 103 wins, it was frustrating and ultimately very disappointing as LA lost to Pensacola in the first round of the Playoffs. The Spiders either bludgeoned their opponents into submission with homers or lost close, well pitched games. The story was the same in the Western Wild Card series.

# MOLLY Pitchers

Manager: Gerry Klug (Peg)

Age: 37 Occupation: Artist

## Biographical Sketch

(Designer of baseball game we all use.)

Team MVP: Butler

## The Season Story

Considering the Pitchers allowed 60 more runs than we scored, a .500 winning percentage was a miracle. It was very enjoyable to manage Dave Stewart to 21 wins. I wish I hadn't traded Billy Swift for Jeff Ballard (his 16 wins this season not withstanding.) This season begins the total overhaul of the team.

# NEW JERSEY Pinstripers

Manager: Rich Perrotti (Donna)

Age: 35 Occupation: Sales

## Biographical Sketch

Did you know that...Rich and Donna took their first trip to California last summer and saw 2 Padres games in San Diego...speaking of Padres, Rich won the Molson League Crown last season and his SD Padres are back in the Series again with a chance to repeat...Rich realizes that he is truly a homeowner now, as he received a garage door opener for a Christmas gift. More Next Year....

## The Season Story

A season ending 13-game losing streak made the season seem much worse than it actually was. Some very good signs emerged as youngsters gained valuable experience. Rafael Palmiero and Bip Roberts reached base consistently and allowed Joe Carter to produce 92 RBI's. Todd Zeile will probably move to 3B to allow for his potential speed and power. And, Glenallen Hill, who showed great range and power in limited play, will be given every chance to win a starting role. As for the pitching, the young staff will be set next season following a year of trial by fire. Jim Abbott, Alex Fernandez, & Chris Nabholz will join Gooden & Martinez to form an imposing staff. The light is finally at the end of the tunnel in New Jersey.

OH ZEE RAINBOW

## Biographical Sketch

This league gypsy has moved again. By season start, I should have my 14th league address. Born in the Ozarks, spent more than half my life in Rocky Mountain West. Now living in the Phoenix, Arizona area. (Hope this one sticks!)

**Team MVP:** Matt Williams **Most Unexp. Perf:** S. Valdez

## The Season Story

What can you add to a 65-95 season? The team ERA was 4.75, 2nd worst in the league. But, for the first time in my League tenure, my team hit more homers than the pitchers allowed. S. Valdez did very well for an unlimited pitcher with 12-14 season. Matt Williams had a spectacular season with 41 homers, 133 rbi and 200 hits. Next season, well.....it might get even worse.

# PENSACOLA Stingray

Manager: Mark Hetterich (Connie)

Age: 44 Occupation: Instr. Developer Robinson Division Champ

## Biographical Sketch

Currently supervising a CBT (Computer Based Training) project converting the Navy's 3M manual into computerized interactive lessons. Am the Chairman of a 3-County Girls Softball Association. Managed my daughter's team to district and regional championships. We Lost in the Nationals to the eventual champion by a good margin, but it was a growing experience. We were halted during a game by the umpires and watched the space shuttle take off. Quite a sight!

Team MVP: Bell

Most Unexp. Perf: Whitson

## The Season Story

The Stingray wrapped up their most successful season in style, winning 12 of their last 16 games and 100 games for the season. The Stingray in the past had good offenses and never won. This season the team was built around pitching - a solid core of starters and a fantastic bullpen. Lee Smith & Dibble anchored the pen and were supported by Larry Anderson, Barry Jones, Schatzeder & Trevor Wilson. The offense didn't have any stars but were solid from top to bottom. Jay Bell was the infield stabilizer, playing in 159 games. He collected 58 XBH and batted .299. Jefferies and Bell scored 93 runs each. McReynolds led the team in homers with 25 and RBI's with 79. Whitson led the starters with a 21-6 mark.

## The Season Story

Philadelphia had its worst year since the mid-80's. We never could get untracked during the year. As the year went on, the team really faltered. I think the new Philadelphia Stadium (IBM Clone) did not suit us at all.

# ROCKFORD Radar

Manager: Mike Kopp (Louise)

Age: 27 Occupation: Tool Designer

Global Wild Card

## Biographical Sketch

Geez, what do I write here? I'm married, have a wonderful son (Timmy, age 1) collect baseball cards and enjoy war games. Hey, isn't my brother supposed to do this. <Fire Him! grin-->Jim>

Team MVP: Bonds

Most Unexp. Perf: Wallach

## The Season Story

A record setting season for the Radar. While first place would have been nice, Rockford easily shattered their record for wins. The "Terrible Trio" of Bonds, Sandberg and Wallach each collected 100+ rbis, another Radar first. A solid rotation featuring Hanson and Zane Smith, and a respectable bullpen rounded out this tough squad. It will likely be some time before Rockford puts together a team as strong as this one, but it sure was fun while it lasted.

Western Conf. Champion

## Biographical Sketch

I still don't like ASG itself, but the computer game looks sharp! No more looking up error and unusual play charts - huzzah! Got married this year (1991), so who knows what's next.

## The Season Story

A big thanks to Jim Pertierra for managing for me this year. I'm ready for Diamond Dreams in 1992. SC won 100 games for the fourth straight year, and is looking for its 3rd AA crown in 4 years (sorry Carl, ed!). Pitching and offense were down from last year, and HR's were down for 4th straight year, but SC did set an AA record for doubles. <Carl>

Fun team; no one stood out. Amazing thing is that the bullpen's numbers look so good especially when slinging so much gas on rallies! <Jim>

# 'SKAYUNA Squires

Manager: Hank Pedicone (Eileen)

Age: 41 Occupation: Attorney

## Biographical Sketch

Another New York State employed lawyer who's decided not to run for President. A life long baseball nut, he is the father of four (ages: 9,7,5,3) and has a spouse amazingly tolerant of his own extended childhood. Will be auditioning the Rockies and Marlins as a surrogate until Steinbrenner is gone for sure and for good.

Team MVP: McGee

## The Season Story

This was a season of ups and downs for the team's first season as the Squires. They performed better on the road than at home, but that was partly due to the fact that all time off for regulars was given at home. Spotty pitching and a porous defense didn't help either. The game reproduced all too well the abilities (and disabilities) of the Squires. Unfortunately, next year will also be a building year, but wait 'till the year after next year!

# THUNDER BAY Lightning

Manager: Bill Graham (Cathy)

Age: 42 Occupation: Attorney

## Biographical Sketch

Much to my surprise, my daughter - who just yesterday took her first steps (or so it seems) - has now toddled off to Alfred University on a full scholarship. Am I a proud papa? You bet! Do I feel old? Not at all. Youth, my friends, is a state of mind, not a time of life. Though we are not now at the height of our youth, the best is yet to be.

Team MVP: McGriff

Most Unexp. Perf: Winfield

## The Season Story

The team got off to its best start in the last five years (15-3). For that glorious 18 game period, it seemed like anything was possible. Thoughts of the 1984 Tigers came to mind and maybe even a division or conference championship. But nothing brings the manager of a mediocre team back to reality like a road trip to Walla Walla. By season's end, the Lightning struggled to finish at .500 and failed.

Will next year be any better? We'll just have to play our "Diamond Dreams" and find out.

# TOUGALOO Bulldogs

Manager: Mark Plate

Age: 26 Occupation: Meteorologist

1992 Team Name Change

OKLAHOMA SUPERCCELLS

## Biographical Sketch

I graduated from Iowa State University in Ames, Iowa in 1987 with a B.S. degree in meteorology. In 1988 I began my career with the National Weather Service in Beckley, West Virginia, before getting promoted to a forecaster position at the NWS in Tulsa, Oklahoma in December, 1990. My hobbies include chasing tornadoes (believe me, it's fun and exciting; even a little dangerous) and, of course, sports. I also collect baseball cards.

Team MVP: Coleman

Most Unexp. Perf: C. Hayes

## The Season Story

I took over the team late in the season, but it was the worst team in the American. Tougaloo suffered from a total lack of effective pitching and a lack of power. Charlie Hayes' 16 home runs and Vince Coleman's 106 stolen bases were about the only statistics worth mentioning, and the only bright spots on an otherwise pathetic Tougaloo ballclub.

## Biographical Sketch

Born in Alabama, raised and educated in Florida, both of which account for my performance in the League.

Team MVP: Magadan

## The Season Story

Do we have to go through this again? No starting pitching, little bullpen, and next to no home run power made it a long season. Magadan, Burks, Hrbeke, Greenwell, Mack & Gregg led the offense. Smiley got 15 wins despite a 4.54 ERA. Ward had a great season out of the pen.

# WALLA WALLA Wombats

Manager: Bryan Sakolsky

Age: 24 Occupation: Student

American Association Champion

## Biographical Sketch

I will finally be finishing school (Masters in Public Affairs) early this year, so I am off to find a job - Gee!! Maybe I can study "meteors" like so many of our brethren. I still enjoy the league immensely, even though the Sherlock C's were managed by some stranger. <Stranger than what? ed.> Well I am still playing Ice Hockey and worshipping every move that Mike Short makes to (as Landin says) "beat the Wombats".

Team MVP: Henderson

Most Unexp. Perf: Downing/Horn

## The Season Story

A good season all around by the boys from the Northwest. Viola, Portugal and Martinez combined for 54 wins. Murray, Bonilla and Dowling/Horn led an explosive offense. The bullpen - despite Craig Lefferts - managed 46 saves, led by Jones and Pall.

Eric Rogers' vision of "Apocalypse Now" is coming. By the time you read this there will be another Weisman in the world. It's due April 21, 1992. Will it be the next Hitler? Mussolini? Ghengis Khan? Pee Wee Herman? Leona Helmsley? or just another loud-mouthed, obnoxious, nerdy weather nut with dandruff, klutziness, myopia and a sarcastic sense of humor? Stay tuned.

## The Season Story

Sensing this team had stalled (four 70-win seasons in the last 5 years), I dealt away the present (Tartabull, Nokes, D. Henderson) to invest in the future and try to retool towards the new game. After the first month of the real season, there was no longer a choice as half the team was released, maimed, or went to Japan. Surprisingly, this team was competitive from the Summer Stretch on (43-49) despite the worst offense in team history. This was mainly due to incredible pitching by Sid Fernandez (why did he have to do this, THIS YEAR) and the bullpen. Mike Witt may have posted the worst year ever by someone who threw a No-Hitter! (ZZ's lot).

# Stat Key

Below you will find some explanations on a few stat categories:

**RC:** runs created, where,  $RC = ((H + BB - CS) * (TB + 0.55 * SB)) / (AB + BB)$

**RC/27:** runs created per 27 outs; in other words, the number of runs a player would create if he were to bat in all nine positions in the batting order.

**RC Factor:** a comparison of runs scored against total runs created, where  $RC \text{ Factor} = R / RC$ ; a value under 1.00 might indicate runs lost due to careless base coaching, too many LOB, GIDP, etc.

**Proj. W-L%:** the expected winning percentage based on a comparison of runs scored to runs allowed, where:  $\text{Proj. W-L\%} = R^2 / (R^2 + OR^2)$

**Def DP:** defensive double plays, which include all types of defensive DPs

**Off DP:** offensive double plays, which include all types of offensive DPs

**Pit Err:** pitcher fielding errors; included in total team errors

**OP-%:** the batting percentage against each pitcher; an average number of batters per inning was derived from the final Association stats (American:  $BFP = 2.8388$ ; National:  $BFP = 2.8487$ ), where,

$$OP\% = H / (H + BFP * IP)$$

**NOTE:** an asterisk ( \* ) preceding any stat indicates that the player or pitcher led his Association in that stat category; a dot ( • ) indicates that the player or pitcher tied for the lead in his Association in that stat category.

## Biographical Sketch

Director of Private Child Care Home for 32 boys, 14-18 years old. Received my Masters degree from Morehead State University. I have two children, Shelly (12) and Joe (10). Joe was 17-3 pitching in Little League and All Stars. I coached his all star team to a 15-3 record. His little league team was 17-5. I coach basketball and softball at work. Our softball team was 31-3. I love competition and challenges.

## The Season Story

The Wardogs won 110 games by combining the Leagues best hitting with the best pitching. Seven players hit 10 or more homers, eight stole 10 or more bases, including three with 50 or better. Rickey Henderson was unbelievable, leading the team in almost every offensive area. Rob Dibble anchored a very strong and deep bullpen. Dave Stewart won 23 games and had 20 complete games. "Rocket" Roger was somewhat of a disappointment with "only" 21 wins and a 3.14 ERA. Kentucky won 16 in a row at one point. Very well-balanced and explosive team.

The series opener saw Danny Darwin(15-3) of Los Angeles up against Ed Whitson(21-6) of Pensacola. Darwin spun a neat 4-hit shutout at the Stingray. The only scoring came in the 5th, as a result of a Jefferies' error, a sac fly and a 2-out single.

Game 2 found Jose Rijo(18-8) on the mound for L.A. and Bobby Witt(14-11) for Pensacola. Unlike Game 1, this turned into a slugfest, with the Spiders coming out on top 10-6. With the score 6-6 into the top of the 9th, L.A. took Lee Smith and Larry Andersen to the cleaners, by scraping up 4 runs, the big hit being a 3-run double by Kal Daniels. John Franco nailed down the victory with a 1-2-3 home 9th.

Game 3 saw Dave Wells(11-5) go to the hill for Pensacola and Kevin Appier(18-5) for Los Angeles. A solo HR by Paul O'Neill in the 9th, broke a 3-3 tie and Rob Dibble came on to record the save, giving the Stingray their first win in the series. Pensacola had blown a 3-run lead, after taking advantage of an error by Don Slaught to plate a pair on unearned runs.

Game #4 saw Whitson back on the mound for Pensacola, against Ron Robinson(11-10) for Los Angeles. The game remained knotted 0-0 until the Pensacola 7th, when the roof caved in on Robinson. A hit batsman, an error and a clutch, 2-out, 3-run double by O'Neill completed a big 4-run inning for the Stingray. They added a pair of insurance runs in the 9th on a 2-run shot by McReynolds. The Spiders finally got to Whitson in the 9th and made it very interesting, as Barry Jones relieved, giving up 3 straight hits to make it 6-3. Dibble got the call and fanned Von Hayes to end the game and even the series.

Game #5 starters were Witt for Pensacola and Rijo for Rockford. Los Angeles broke the home team jinx in shelling both Witt (7 runs) and reliever Boyd (6 runs)! Alan Trammell provided the spark, blasting two homers, going 4 for 5, with 8 RBIs. Rijo earned the complete game victory, hurling a 5-hitter.

Game #6 saw L.A. call on Appier to face Wells of Pensacola. Wells, with help from Arnsberg, held off the Spiders, in sending the series to the deciding 7th game with a 5-3 win. A 2-out, pinch-hit, 2-run triple by Von Hayes had closed the score to 4-3, Stingray. However, Milligan added a solo HR in response in the home half, which was all Dibble needed to close the door, fanning Kelly and Boggs to end the game, with a runner on, for his 3rd save of the series!

The series finale saw another Robinson/Whitson match-up, which ended in a thrilling 2-1 victory for Pensacola! L.A. lost two golden opportunities, both with the bases loaded. One in the 3rd, with 1 out, and another in the 8th, with no outs. L.A. came up dry both times, with the most agonizing being in the 8th, when Lee Smith struck out the side to strand the runners! Smith completed the save, coasting through the 9th. McReynolds plated the winning runs for Pensacola, with a single in the 3rd. The Stingray will now meet the Sherlock C's for the Western Conference Championship.

The series opener saw a battle between Erik Hanson(23-5) of Rockford and Nolan Ryan(12-12) of Colonie. Rockford manufactured a run in the 3rd on a HB, SB, G4 & SF. They added 2 more in the 7th on a Devereaux HR. Meanwhile, Hanson carried a 3-hit shutout into the 9th, only to have Justice chase him with an RBI-double. Landrum relieved Hanson and retired Sheffield and Jody Reed, to earn the save.

Game 2 found Zane Smith(18-10) on the mound for Rockford, up against Danny Jackson(13-4) for Colonie. The Flames took advantage of Smith's early wildness (3 consecutive 1-out walks) to score 3 times in the 1st. Rockford scratched for a pair of runs in the 4th, but Colonie padded their lead with 2 of their own in the 5th, when Justice delivered a 2-out, 2-run single. The Flames' bullpen held the Radar in check the rest of the way to even the series at 1-1.

Game 3 saw Norm Charlton(12-6) get the call for Colonie, and Mike Harkey(12-9) for Rockford. The Flames' bats woke up, banging out 16 hits and earning a big 14-3 victory. Treadway was 5 for 6, with 5 RBIs for the Flames.

Game #4 saw a re-match of Game #1 starters, Ryan and Hanson. The result was another pitching duel. A 2-out, RBI-double by Villanueva off Flame reliever Swift in the Radar 6th, proved to be the game-winner, as Hanson pitched into the 9th, giving way to Klink and Landrum. Hanson fanned 11 Flames.

Game #5 starters were Pat Combs (11-6) for Colonie and Zane Smith for Rockford. Smith took an early exit, serving up four gopher balls in less than 4 innings. Combs was forced to leave the game in the 4th with stomach cramps (bad tacos!) and the usually reliable Flames bullpen nearly let the Radar back in the game, as Rockford scored in each of the final three innings. Thigpen notched the save, despite giving up a 2-run, pinch-hit homer to Kruk in the 9th.

	HR-Dunston(1)													

Game #6 saw Rockford call on Harkey to face Jackson of Colonie. Harkey proceeded to "blow out" Flames left and right, scattering 4 hits over 8 innings. Landrum relieved Harkey taking a slim 2-0 lead into the home 9th. The Flames finally got on the board when Jody Reed delivered a 2-out, RBI-single, but Landrum slammed the door, earning his 3rd save and evening the series at 3 games apiece.

HR-Kruk(2), Bonds 2 (1,2), Sandberg(1), Wallach(1), Gant(3)													

The series finale saw a final Hanson/Ryan match-up. In the 6th, with the score 1-0 Rockford, the Radar put on one of the most amazing power displays in TML post-season history when Kruk, Bonds, Sandberg and Wallach belted back-to-back-to-back-to-back homeruns. One came off Ryan, two off reliever Charlton and one off Gleaton. Bonds smashed his second HR of the game as part of a 3-run Radar 7th. Having built up a commanding 8-0 lead, Hanson continued to mow down the Flames. However, in the Colonie 8th, Gant sent Hanson to the showers with a 3-run homer, but Landrum pitched the final 1.2 innings, retiring all 5 batters he faced. The Radar will now meet the Walla Walla Wombats for the Global Conference Championship.

The series opener saw both aces going head-to-head, Ed Whitson(21-6) of Pensacola and Doug Drabek(24-6) of Sherlock. The expected pitching duel ensued, as the game remained scoreless into the 9th! Paul O'Neill came through again, launching a solo HR to break the ice. The Stingray added another run, which was more than Rob Dibble needed to nail down Game 1 and complete the combined 4-hit shutout of the Cs.

Game 2 found Oil Can Boyd(17-6) on the mound for Pensacola and Chuck Finley(19-6) for Sherlock. The Cs returned the favor, as Finley tossed a neat 5-hit shutout back at the Stingray! Puckett ripped the game wide open with a 3-run HR in the 5th, giving Finley a comfortable margin to work with. Sherlock only managed 5 hits, but made the most of them.

Game 3 saw Bruce Hurst(16-10) get the nod for Sherlock and Bobby Witt(14-11) for Pensacola. A 2-out, 2-run clutch double by Hal Reynolds off Dibble in the top of the 9th gave Sherlock a 3-1 lead. McReynolds made it interesting with a lead-off solo HR in the home 9th. With 2 outs, Pensacola put runners on 1st & 2nd. Williamson was called in and faced pinch-hitter Cabrera, inducing him to ground out to 1st, giving Sherlock the tight 3-2 victory!

Game #4 saw a re-match of Game #1 starters, Drabek and Whitson. Once again, Whitson held the Cs scoreless, this time into the 8th, before yielding to the Stingray bullpen. Wells and Dibble responded by completing another 5-hit shutout of the Cs. The only scoring in the game came back in the home 1st, when Drabek gave up 3 runs on 3 hits (two 2Bs). Drabek settled down, blanking the Stingray over the final 7 innings, allowing only 2 more hits in his complete game effort.

Game #5 starters were Finley for Sherlock and Boyd for Pensacola. The Cs erupted for 6 big runs in the 12th inning, taking the wind out of the Pensacola sails. Reliever Barry Jones took the brunt of the rally, giving up 5 of the runs. The spark was a bases loaded, 2-run single by Puckett, following a walk and an infield hit. Kirk Gibson completed the scoring with a 2-run double. This was a tough loss for Pensacola, having come from behind, erasing a 4-0 Sherlock lead.

Game #6 saw Pensacola send Witt to the hill to face Hurst of Sherlock. Still reeling from the demoralizing Game #5 loss, the Stingray fell behind 6-1 after 6 innings. Ken Griffey, Jr. had driven in 3 of the runs. Then, still trailing by a score of 7-2, Pensacola began a spirited 9th inning rally. Cs reliever Fraser gave up a walk and a hard single. The Cs followed with Williamson, Kipper and McCaskill, before Montgomery could put out the valiant rally, giving the Cs the Western Conference Tide! Sherlock will now play Walla Walla for the American Association Pennant.

The series opener saw Erik Hanson(23-5) of Rockford facing Dennis Martinez(20-6) of Walla Walla. Martinez combined with Doug Jones on a 6-hit shutout of the Radar to open the series. Van Slyke scored the only run the Wombats needed in the 1st, when he came all the way around on a 4-base error by Bonds. Hanson's post-season magic was broken when he was chased in the 8th by a Bonilla solo homer.

Game 2 found Zane Smith(18-10) on the mound for Rockford and John Tudor(13-8) for Walla Walla. A 3-run 3rd for Walla Walla and a solo run in the 4th on a SF was enough to send the Wombats on to victory, as Tudor, Portugal and Jones held the Radar in check once again. The two Radar runs came on a GIDP(1st) and a SF(7th).

Game 3 saw Mark Portugal(15-8) on the hill for Walla Walla, and Mike Harkey(12-9) for Rockford. The Wombats scratched their way to a 3-0 lead in the 3rd, before Rockford finally got on the board, on a 2-run double by Bonds. However, the Radar were unable to mount another scoring threat the rest of the way. Portugal needed last-out relief help from Jones to send the Wombats out to a 3 games to none series lead.

Game #4 saw a re-match of Game #1 starters, Martinez and Hanson. This time the match-up of 20-game winners did not disappoint the fans, as the two hooked up in a good old fashioned 0-0 pitching duel. With their "backs to the wall", the Radar finally "broke the ice" in the 8th when Dunston delivered a 2-out, 2-run triple. Hanson retired the Wombats in order in the 9th, to complete his 5-hit shutout and keep the Radar alive.

Game #5 saw a re-match of Game #2 starters John Tudor and Zane Smith. This turned out to be a free-for-all, as both starters were in the showers before the end of the 5th inning. The Radar fought back three times to take the lead. With an 8-7 lead going into the 8th and their "Ace" reliever, Landrum, on the hill, it seemed safe to say that there would be a Game #6. However, the Wombats did not agree! They erupted for 6 runs in the inning, chasing Landrum, on 3 singles, 3 walks and a hit batsman. The Wombats batted around, sending 11 men to the plate. Guetterman pitched the 9th for Walla Walla, getting Bonds, Sandberg and Wallach on grounders to second. The victory sends Walla Walla into the American Championship against arch-rival Sherlock.

The series opener saw both aces going tete-a-tete, Doug Drabek(24-6) of Sherlock and Dennis Martinez(20-6) of Walla Walla. Drabek opened the series with a fabulous 2-hit shutout of the Wombats. Brett drove in the only run he needed, with an RBI-double in the 6th, after Duncan had reached 2nd on an error and stole 3rd. Martinez pitched a fine game, scattering 7 hits over 8.1 innings.

Game 2 saw Chuck Finley(19-6) on the mound for Sherlock and John Tudor(13-8) for Walla Walla. Wombat Ron Jones snapped a 5-5 tie in the home 7th, by greeting C's reliever Williamson with a big pinch-hit, 3-run HR. The Wombat bullpen pitched in and out of trouble over the final 2 innings, to secure the victory. Back in the Wombat 4th, Bonilla had contributed a solo HR, followed later in the inning by a 3-run shot off Downing's bat. The C's Howard Johnson was 3 for 5 (two doubles).

Game 3 saw Mark Portugal(15-8) get the nod for Walla Walla and Bruce Hurst(16-10) for Sherlock. With the score a tight 4-3 in favor of Walla Walla after 6 innings, the Wombats' went berserk, ripping the C's usually reliable bullpen, scoring 10 times over the final 3 innings! The sudden barrage was highlighted by 2-run HRs by both Bonilla and Murray. The Wombats banged out a total of 21 hits, with each starting player having at least 2. Back in the C's 4th, Howard Johnson clobbered a 3-run HR off Portugal, which at the time, had tied the game at 3-3.

Game #4 saw a re-match of Game #1 starters, Martinez and Drabek. Drabek pitched in and out of trouble, scattering 12 hits over 8 innings, leaving the Wombats frustrated. Despite 13 hits, the Wombats only run scored on a ground out in the 2nd. The C's Howard Johnson broke the 1-1 tie in the 8th, with a 2-run HR. Montgomery came on to pitch the 9th and barely got out of the inning with the save, as he induced Bonilla to bounce into a game-ending DP, with runners on 1st & 3rd. For Walla Walla, Murray was 5 for 5 and Julio Franco was 4 for 4, but had no RBIs and only 1 run scored between them!

Game #5 saw a re-match of Game #2 starters Tudor and Finley. This game boiled down to a bit 4th inning for the Wombats, in which they batted around, as Finley self-destructed. In the inning, Finley served up 6 hits and 4 walks! The inning ended, appropriately, with a runner being thrown out at 3rd. The C's put together a pair of rallies in the 8th & 9th, but it was the proverbial case of "too little, too late". Wombat Murray had 3 more hits. Tudor earned the win, scattering 4 hits over his 7.1 innings of work.

Game #6 saw Sherlock call on Hurst, with Walla Walla sending Portugal to the hill. The Wombats built up a 6-0 lead, with the big blow coming from the bat of Bonilla in the 6th, when he ripped a 3-run HR off Hurst. Portugal coasted on his comfortable lead, scattering 6 hits and never really getting into any trouble. Kirk Gibson greeted Portugal with a lead-off HR in the C's 9th, to spoil his shutout. Doug Jones got the call and retired all three batters he faced to give Walla Walla the American Association Pennant and the rare chance to defend their TML Title in the World Series, against perennial National Champ, Kentucky.

The World Series opener saw Dennis Martinez(20-6) of Walla Walla and Roger Clemens(21-6) of Kentucky set to do battle. Hal Morris struck the big blow, with a 3-run homer in the Kentucky 5th, that gave the Wardogs the lead back. The Wombats had taken a 6-4 lead in the top of the 5th when Van Slyke rapped out a 2-run double and Bobby Bonilla followed with a 2-run HR. Clemens settled down now that he was back on the lead and carried the 7-6 lead into the 9th. Rob Dibble relieved and notched the save, to give the Wardogs an opening game victory. Larry Walker put Walla Walla on the board back in the 4th, with a 2-run HR.

Game 2 found John Tudor(13-8) on the mound for Walla Walla, up against Dave Stewart(23-9) for Kentucky. A clutch 3-RBI, bases clearing, pinch-hit double by Kent Hrbek off reliever Portugal in the Kentucky 5th, capped a 5-run outburst. The inning also saw pinch-hitter Hal Morris deliver a 2-run single. This was all Stewart needed, as he scattered 5 hits in securing his complete game win. The Wombats scored their 2 runs in the 3rd, on a Van Slyke homer.

Game 3 saw Randy Tomlin(6-1) get the call for Kentucky, and Mark Portugal(15-8) for Walla Walla. After 3 scoreless innings, the Wardogs renewed their assault on Portugal, getting to him for a run in the 4th & 5th (Harris HR), followed by a pair in the 6th (Dawson 2-run HR). Tomlin did his job in holding the Wombats scoreless through 5 innings and gave way to the deep Kentucky bullpen. Dibble was brought in a bit earlier than normal and did fine into the 8th, when the Wombats began a rally. Dibble left after a Sharperson double. Burke came in and got Henderson out. The call went to the volatile Randy Myers, who walked pinch-hitter Stillwell, served up a 2-run double to Murray and beamed Bonilla before ending the rally. Myers carried the slim 4-2 lead into the Wombat 9th. He retired the first two men before making it interesting. Kennedy drew a walk and advanced to 2nd on Sharperson's single. This brought up Rickey Henderson, who grounded weakly to short to end the game and give Kentucky a commanding 3 games to none lead in the Series!

Game #4 saw a re-match of Game #1 starters, Clemens and Martinez. With their "back against the wall", the Wombats fought back to tie the game at 5-5 with solo runs in the 7th and 9th. The run in the 9th was courtesy of "Gasoline Can" Myers, who served up a double and single, to keep the Wombats alive! Their hope did not last too long, as Kentucky erupted in the 10th, scoring 4 times. All the runs came off Walla Walla relief ace Doug Jones. The big blow was a 3-run HR by Rickey Henderson. Rob Dibble, who had to come in and put out Myers' fire in the 9th, earned the win, by fanning the final two batters of the game, including the Wombat version of Rickey! This gave the KENTUCKY WARDOGS an incredible 4th TML Championship and their 3rd in the past 5 years!

### HR-Ron Gant (2-run HR in 2nd)

**Summary:** The Nationals won in the 11th when Sandberg scored on a Thigpen wild pitch. MVP Tony Gwynn, who had doubled in the tying run back in the National 8th, set up the winning run with a single, sending Sandberg to third.

# TML Feedback

- Kudos to Jim, Rich, Mike S. and Larry for their terrific job during Mike Landin's year off. (rogers)
  - Outside of a dog, it and a book are a man's best friend. Inside of a dog it's too dark to read (with apologies to Groucho Marx). (graham)
  - I applaud the latest moves of TML and believe it is going in the right direction. I look forward to playing in the computerized era. (gatto)
  - Looking forward to TML XIII. It's great to have Mike back. He is the heart of our league. (rumsey)
  - Alive and kicking...Thanks to all those road managers who got more out of the team than I did. (short)
  - Who said that expansion had to be fair and even-handed? (perrotti)
  - Is there anything better!!! (mahan)
  - So far, so good. (plate)
  - Another solid year. Can it get better than this? (hetterich)
  - Looking forward to the future growth of the league with the best people in the hobby. (steinmetz)
  - Its fun! (mike) As always, good people! (tom) (kopp)
  - The three best things we've ever done are; fix the rookie draft, go to a computer game, and expansion. And they all happen in 1992, I'm looking forward to it. (carpenter)
  - Much more fun with the advent of the computer game. (pedicone)
  - A difficult season in a great league is better than a great season in a shit league. (geiger)
  - Why don't you wussies want to trade during the season? (klug)
  - Despite changes, one constant remains: great league. (sakolsky)
  - Thanks for your patience, Jim. This was the most trouble I ever had with my stats. Welcome back Mike! (weisman)
  - Its great. Enjoyed talking trades with everyone. (r. ross)
  - Still the best league, but the game is questionable! (c.lentine)
  - The computer game should allow us all to enjoy the League (gaige)
  - The computer game will make my life easier! (pittner)
  - Proud to be a part of. (t. ross)
  - Still my favorite spare time activity. (goldberg)
  - Still the best. And much safer than sex. Just ask Earvin Johnson what he'd have rather been doing! (mayko)
  - Just gets better and better. (hall)
  - Jim did a great job, but still work needs to be done on bogus trades. (mowry)
  - I hope the computer version of ASG will reduce my dislike for the game. (f. lentine)
  - Still one of the premier leagues. (vincent)
  - Thank God for the computer version. (lagace)
  - The TML is great. (albanese)
  - I know that I am biased, but I'm still in love! (pertierra)
  - Can't wait to play the computer game! (ameen)
  - Its a great league and the computer version is only going to make it better. (story)
  - After 12 years, THIS MIGHT LAST! (clark)
  - Marvelous! The icon of table top leagues! (zuchowski)
  - The beat goes on. Jim, Rich and Mike S. deserve kudos for another great job! (alber)
  - Thank God for the Computer game. (schembari)
- It took long enough, but this Yearbook is finally finished. At least, it beat out the 1992 Yearbook (barely!). This season marked the end of an era, as the computer game began to appear more and more throughout the league. Next season, we will be heading into our first computer season (though a few will be using cards). We will also be looking forward to the TML's first expansion draft, as eight new teams will join us. The TML has undergone a lot of changes recently, but will emerge stronger, thanks mostly to our fine membership. (landin)
